

Aviva Agriculture

Target Market Statement

This document has been prepared by Aviva UK General Insurance to provide an overview of our Commercial Lines Agriculture Insurance products. It is intended to help distributors understand the target market for these products, at new business and at point of renewal. In addition, distributors should consider whether any changes in circumstances may result in some features of the product(s) no longer being suitable (for example distribution channel, features/covers, communication method and payment method).

Aviva Insurance Limited will overlay some eligibility and risk acceptance criteria will be applied and shown through the quote process. This will result in some customers for whom the product(s) is/are suitable not being eligible due to our current risk appetite.

Aviva Insurance Limited is the Product Manufacturer for these products and may source elements of cover from third parties. Full details are contained within the policy documentation.
