Product information

In accordance with the FCA PROD Product Intervention and Product Governance Sourcebook PROD 4 Product governance rules a product review and fair value assessment has been completed for the Accident & Health products.

The product has been subject to Aviva's full product review process and signed off by our authorised approvers as representing fair value to customers and may continue to be marketed and distributed.

The Accident & Health product offering provides insurance value for Personal Accident, Sickness and Business Travel cover. This product covers a wide spectrum of customers ranging from police officers, sports teams and schools within Personal Accident and Sickness offerings. The products can also be purchased to cover UK and multinational risks which gives customers a wide range in terms of where the insurance can be used. Through the pandemic, Business Travel was a product line that was monitored closely due to wider travel restrictions and the impact to the travel industry. We witnessed a continuation of claims during this period with the product continuing to offer value to our customers. As predicted, 2022 has seen claims volumes increase further, returning to pre Covid-19 levels.

The assessment of fair value included review of the following management information as well as other insight:

- Average Cost per Claim
- Total Claims Cost
- Average Customer Settlement Lifecycle
- Average Overall Claims Lifecycle
- Claims Frequency by Peril
- Average Regulated Complaints Lifecycle
- Regulated Claims Complaints (as a % of claims made)

Following the review, we have concluded that the performance of the management information is within agreed tolerance levels. Additionally, no issues or actions have been raised through the review process.
