

Aviva Crime Insurance

Target Market Statement

This document has been prepared by Aviva UK General Insurance to provide an overview of our Commercial Lines Crime Insurance product. It is intended to help distributors understand the target market for this product, at new business and at point of renewal. In addition, distributors should consider whether any changes in circumstances may result in some features of the product no longer being suitable (for example distribution channel, features/covers, communication method and payment method).

Aviva Insurance Limited will overlay some eligibility and risk acceptance criteria which will be applied and shown through the quote process. This will result in some customers for whom the product is suitable not being eligible due to our current risk appetite.

Aviva Insurance Limited is the Product Manufacturer for this product and may source elements of cover from third parties. Full details are contained within the policy documentation.

What features should you be aware of when considering this product?

- The Commercial Crime policy provides 'all risks' protection for theft, fraud or dishonesty committed by the customer's employees.
- Loss discovered basis of cover, whereby loss is covered regardless of when it occurred, provided that it is first discovered during the period of insurance or any applicable discovery period.
- The limit of indemnity is typically provided on an "any single loss" basis.
- Run-off cover for disposed of Subsidiary Companies or Associated Companies.
- We recognise that some individuals have additional support needs, such as alternative formatted documents, when purchasing or understanding our products. Aviva Insurance Limited is committed to helping meet these needs. If additional support is required, please contact us to discuss how we can assist the customer.
- Sales journeys must identify customer eligibility and ensure that key information and choices to be made are presented to customers in a way that supports a customer through the process of understanding core cover and configuring optional elements of insurance to suit their specific demands and needs.

- Whilst there is a degree of complexity driven by the need to select appropriate optional additional covers and tailor configurable elements of insurance, each element, limit or choice is sufficiently simple for customers to understand without advice as the underwriting method frees customers to engage with their cover selection. This alongside the annual renewal process, enables familiarity in order to support their decision making.
- This product does not cover things such as:
 - War and Terrorism.
 - Loss of and/or damage to and/or disclosure of proprietary information, trade secrets, confidential processing methods, intellectual property, customer details or other confidential information of any kind.
- Loss resulting from an assertion that the price paid by the Customer for the acquisition of a company was dishonestly inflated.
- Further criminal acts committed by employees following discovery.
- Customers who pay their premiums monthly are more than likely to pay a higher premium than those who pay their premium annually, therefore consideration needs to be given regarding affordability.
