In addition, distributors should consider whether any changes in circumstances may result in some features of the product no longer being suitable (for example distribution channel, features/covers, communication method and payment method).

Aviva Insurance Limited will overlay some eligibility and risk acceptance criteria which will be applied and shown through the quote process. This will result in some customers for whom the product is suitable not being eligible due to our current risk appetite.

- Sales journeys must identify customer eligibility and ensure that key information and choices to be made are presented to customers in a way that supports a customer through the process of understanding core cover and configuring optional elements of insurance to suit their specific demands and needs.
- Whilst there is a degree of complexity driven by the need to select appropriate optional additional covers and tailor configurable elements of insurance, each element, limit or choice is sufficiently simple for customers to understand without advice as the underwriting method frees customers to engage with their cover selection.

 - Pre-existing damage or claims because something's faulty or built badly to start with.
 - Damage that's happened slowly over time.
