

# Aviva Property Owners Insurance Target Market Statement

This document has been prepared by Aviva Insurance Limited to provide an overview of our Commercial Lines Property Owners Insurance product. It is intended to help distributors understand the target market for this product, at new business and at point of renewal. In addition, distributors should consider whether any changes in circumstances may result in some features of the product no longer being suitable (for example distribution channel, features/covers, communication method and payment method).

Aviva Insurance Limited will overlay some eligibility and risk acceptance criteria which will be applied and shown through the quote process. This will result in some customers for whom the product is suitable not being eligible due to our current risk appetite.

## What features should you be aware of when considering this product?

- We recognise that some individuals have additional support needs, such as alternative formatted documents, when purchasing or understanding our products. Aviva Insurance Limited is committed to helping meet these needs. Please contact us and we can discuss how to support the customer.

- Sales journeys must identify customer eligibility and ensure that key information and choices to be made are presented to customers in a way that supports a customer through the process of understanding core cover and configuring optional elements of insurance to suit their specific demands and needs.
- Whilst there is a degree of complexity driven by the need to select appropriate optional additional covers and tailor configurable elements of insurance, each element, limit or choice is sufficiently simple for customers to understand without advice as the underwriting method frees customers to engage with their cover selection. This alongside the annual renewal process, enables familiarity in order to support their decision making.
- This product does not cover things such as:
  - Damage caused by an existing defect; wear and tear; gradual deterioration; frost or change in the water table; faulty or defective design, workmanship or operating error.
  - Acts of fraud or dishonesty.
- Customers who pay their premiums monthly are more than likely to pay a higher premium than those who pay their premium annually, therefore consideration needs to be given regarding affordability.
