#### Product information

Aviva's Product Approval Process can be found [here](#). Further information for our distributors about Aviva's Product Oversight and Governance (POG) arrangements can be found [here](#).

In accordance with the Financial Conduct Authority (FCA) regulation such as Product Intervention and Product Governance Sourcebook PROD4 and Consumer Duty rules a product review and fair value assessment has been completed for the Marine product.

The product has been subject to Aviva's full product review process and signed off by our authorised approvers as representing fair value to customers and may continue to be marketed and distributed. Our pricing structure provides value for customers in that the main rating factor (expected claims cost) has a linkage to the usability of the product. All other rating factors to calculate the technical premium are necessary for Aviva to provide a sustainable product for the customer.

Within the Marine product line, we generally observe a lower frequency of claims, offset by higher severity when claims do occur. Nevertheless, the management information reviewed provides robust evidence that the product remains both accessible and fit for purpose from a customer perspective.

As part of the full product review process, Aviva has also considered the add-ons/optional covers associated with this product. These include:

- Premium Finance
