Target Market Statement

Aviva UK General Insurance have prepared this document to provide an overview of our Your House home insurance product. It is intended to help distributors understand the target market for this product, at new business and at point of renewal. In addition, distributors should consider whether any changes in circumstances may result in some features of the product no longer being suitable (for example distribution channel, features/covers, communication method and payment method)

Aviva Insurance Limited will overlay some eligibility and risk acceptance criteria that will be applied and shown through the quote process. This will result in some customers for whom the product is suitable not being eligible due to our current risk appetite.

What features should you be aware of when considering this product?

- There are different underwriting options available when purchasing this product and individuals should consider which option is the best for their circumstances.
- We recognise that some individuals have additional support needs, such as alternative formatted documents, when purchasing or understanding our products. Aviva Insurance Limited is committed to helping meet these needs. Please contact us and we can discuss how to support our customer.
- Sales journeys must identify customer eligibility and ensure that key information and choices to be made are presented to customers in a way that supports a customer through the process of understanding core cover and configuring optional elements of insurance to suit their specific demands and needs.
- Whilst there is a degree of complexity driven by the need to select appropriate optional additional covers and tailor configurable elements of insurance (such as excess), each

element, limit or choice is sufficiently simple for customers to understand without advice as the underwriting method frees customers to engage with their cover selection. Home Buildings insurance is a standard mortgage requirement and is held by most homeowners. This alongside the annual renewal process, means familiarity that supports their decision making.

- Customers must insure their property for its full rebuild or replacement value without exceeding the maximum permitted sum insured (these limits are variable by property type and postcode).
- This product does not cover things such as:
 - Pre-existing damage or claims because something is faulty or built badly to start with
 - Damage that has happened over time (wear and tear)
 - Fences, gates or hedges damaged in a storm
 - Wet rot, dry rot or frost damage
- Customers who pay their premiums monthly are more than likely to pay a higher premium than those who pay their premium annually, therefore consideration needs to be given regarding affordability.
