### **What features should you be aware of when considering this product?**

- Aviva Premier Bike (Third Party Only) Motor Insurance is a mass market product that has been developed based on customer research to ensure an appropriate level of customer understanding without the provision of advice.
- The mandatory nature of motor insurance, and the annual renewal process, means mass market customers are familiar with, and regularly engage with, this product type, creating a level of familiarity that supports their decision making.

- We recognise that some individuals have additional support needs, such as alternative formatted documents, when purchasing or understanding our products. Aviva Insurance Limited is committed to helping meet these needs. Please advise us of these additional needs and we can discuss how to support the customer.
- Sales journeys must identify customer eligibility and ensure that key information and choices to be made are presented to customers in a way that supports a customer through the process of understanding core cover and configuring optional elements of insurance to suit their specific demands and needs.
- There is a degree of complexity driven by the need to select appropriate optional additional covers and tailor configurable elements of insurance (such as excess). However, each element, limit or choice is sufficiently simple for customers to understand without advice as the underwriting method frees customers to engage with their overall selection.
- This product does not cover things such as:
  - Damage arising from wear and tear, electrical and mechanical breakdown, or gradual deterioration.
  - Loss of value following a repair.
- The product is supported by a standard Insurance Product Information Document, which is in a standardised format that is easily recognisable and understood by customers.
- Customers who pay their premiums monthly are more than likely to pay a higher premium than those who pay their premium annually, therefore consideration needs to be given regarding affordability.
